

Are You a Victim of a Robbery? CALL 911

Be a good witness, Scan the person top to bottom, outside to inside. Try to look at them as long as possible, look at them from behind when they are leaving. If they touched anything (counter, glass door, etc.) avoid touching it yourself and try to keep others from touching it.

Write it down IMMEDIATELY! The Longer you wait to write down the information, the more you will forget!

PEOPLE
